

Welcome to EMMI

EMMI is an online interactive program that will explain what to expect before, during, and after your surgery. Since this program is an important part of the care that you will be receiving from us, we strongly urge you to view the program prior to your surgery. Your surgeon is providing you with this additional information ahead of time so that he can answer any questions you might have. We recommend that you watch this program with the person(s) that will be supporting you during your recovery.

Attached you will find instruction on how to access this program along with your own access code. If you have any questions after viewing EMMI please call our office at (630) 665-9155 and leave a message on extension 578.
